Customer Charge - Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Delivery Service Charges - Charges for the use of local wires, transformers, substations, metering, billing, other equipment, and other activities used to deliver electricity to consumers from high-voltage power lines.

This charge includes Transition Bond Charges, which JCP&L is collecting as servicer on behalf of JCP&L Transition Funding II LLC, which owns the Transition Bond Charge.

Price to Compare - Price per kilowatt hour to be used when comparing to the price of a generation supplier.

Prorated Bill - If this is on your bill, the current billing period is for less than 26 days or more than 35 days or a rate change occurred during the current billing period.

Service Charge - Charge for opening an account.
