 Remote Net Metered Solar Facilities
 Identifying Major and Minor Deficiencies**

Identifying Minor and Major Deficiencies in Your RNM Registration Packet

If your RNM Registration in the Administratively Determined Incentive (ADI) Program is deemed to have a **MAJOR DEFICIENCY** based on the table below, the registration will be rejected. All parties listed in the online portal will receive an email notification which will identify the missing or incorrect items from your RNM Registration Packet. Once the registration is rejected, you may submit a new registration in the online portal. The new RNM Registration will have no reference to the previously rejected registration.

If your RNM Registration is deemed to have a **MINOR DEFICIENCY** based on the table below, all parties listed in the online portal will receive an email notification which will include the missing or incorrect items that are required to be addressed. You will have **seven business days from the date of the email** to address the issue and make corrections to complete the RNM Registration Packet. If you do not address the issue within seven business days, the registration will be rejected, at which time you may submit a new registration in the online portal if you wish to proceed with this project. The new RNM Registration will have no reference to the previously rejected registration.

Remote Net Metered projects may not exceed 5 MW (dc). Any RNM Registration for a solar system sized over 5 MW (dc) will automatically be rejected. A new RNM Registration packet will be required to be submitted if you wish to proceed; the new registration will have no reference to the previous registration.

RNM registrations will be accepted until the capacity allocated for the RNM capacity block is fully subscribed. When the capacity block is reached, the RNM registration portal will stop accepting new registrations. Capacity blocks will be set annually by the Board.

RNM REGISTRATION DEFICIENCY	MINOR DEFICIENCY	MAJOR DEFICIENCY
RNM Registration Certification Form	<ul style="list-style-type: none"> • Sections on the form are not Missing signature verification sheet for electronic signatures 	<ul style="list-style-type: none"> • Form is missing signatures • Form not uploaded to RMN portal with the registration packet
Site Map	<ul style="list-style-type: none"> • Technologies not labeled • Panels not indicated • Missing or incorrect premise address • Missing installer information • Not certified by a professional engineer 	<ul style="list-style-type: none"> • Site Map not uploaded to RNM portal with the registration packet
